WHAT YOU CAN DO RIGHT NOW

1

See how and when you can get vaccinated

Your local health department determines how vaccines are distributed. Choose your state or territory below to find your health department.

2

Continue taking precautions and stay informed

Wear a mask, stay 6 feet apart, and avoid crowds to protect yourself.

AFTER VACCINATION USE V-SAFE

v-safe is a smartphone-based tool that gives you personalized health check-ins after you receive a COVID-19 vaccine.

- Through v-safe, you can quickly tell CDC if you have any side effects after getting the COVID-19 vaccine.
- v-safe will also remind you to get your second COVID-19 vaccine dose if you need one.

[Register for v-safe](#)

[How to Use v-safe](#)

WHO SHOULD GET VACCINATED FIRST

CDC recommends giving COVID-19 vaccine in phases, which may overlap:

1a: Healthcare personnel **and** Long-term care facility residents

1b: Frontline essential workers **and** People age 75 years and older

1c: People aged 65 through 74 years **and** People aged 16 through 64 years with underlying medical conditions **and** Other essential workers
